Desmond Weindorf

Software Engineer | San Francisco, CA | resume@desmondw.com | github.com/desmondw

Experience

Senior Software Engineer (Darby Smart), Dec 2017 – Present

- Focused on SEO efforts, leading to higher viewership through organic growth

Software Engineer (HelloSign), Jan 2015 – Jun 2017

- Developed the external API, SDKs, and integrations as primary contact
- Managed HackerOne reports and security audits as the first Security Engineer
- Assisted with creation of QA team and subsequent dev QA tasks
- Advocated for standardization in developer workflow and code syntax
- Interacted directly with clients, end-users, and vendors while developing features

Owner (Weindorf Technologies), Apr 2014 - Sep 2014

- Designed websites and social media presence for clients
- Managed all business operations and client communications

Web Developer (Advantage Computer Services), Jan 2013 – Apr 2014

- Designed and developed marketing websites and web applications from scratch
- Conceived and implemented a variety of marketable web services
- Led dev team improvement with a common workflow, quality standards, and QA
